CERTIFICATE OF FILING
OF
AMENDED ARTICLES OF INCORPORATION

KNOW ALL PERSONS BY THESE PRESENTS:

This is to certify that the amended articles of incorporation of the

STRONGBIZ MARKETING CORPORATION
(Amending Article III thereof)

copy annexed, adopted on December 09, 2021 by majority vote of the Board of Directors and by the vote of the stockholders owning or representing at least two-thirds of the outstanding capital stock, and certified under oath by the Corporate Secretary and a majority of the Board of Directors of the corporation was approved by the Commission on this date pursuant to the provision of Section 15 of the Revised Corporation Code of the Philippines, Republic Act No. 11232, which took effect on February 23, 2019, and copies thereof are filed with the Commission.

Unless this corporation obtains or already has obtained the appropriate Secondary License from this Commission, this Certificate does not authorize it to undertake business activities requiring a Secondary License from this Commission such as, but not limited to acting as: broker or dealer in securities, government securities eligible dealer (GSED), investment adviser of an investment company, close-end or open-end investment company, investment house, transfer agent, commodity/financial futures exchange/broker/merchant, financing/lending company and time shares/club shares/membership certificates issuers or selling agents thereof; nor to operate a fiat money to virtual currency exchange. Neither does this Certificate constitute as permit to undertake activities for which other government agencies require a license or permit.

IN WITNESS WHEREOF, I have set my hand and caused the seal of this Commission to be affixed to this Certificate at Pasay City, Metro Manila, Philippines, this 24th day of March, Twenty Twenty Two.

THE ACCURACY COUNTS

WATER METER MODEL MAM-P

Dry Dial Plastic Body Water Meter

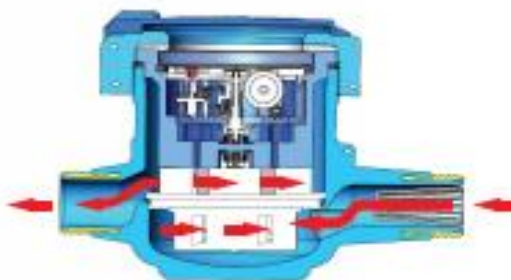

MAM-P Dry Dial Plastic Body Water Meter is a vane wheel, multi-jet type water meter with a separate measuring chamber.

Within this Plastic meter case, there are two primary elements, the hermetically sealed register and the measuring chamber.

The vane wheel is revolved by jet streams passing through specially shaped inlet nozzles of the measuring chamber and the motion of the vane wheel is transmitted to the hermetically sealed register by a magnetic couple buried in the vane wheel spindle and the register.

This TAC water meter is superior not only in accurate measurement from starting flow to maximum flow, but also in durability.

Besides certification from Thai Industrial Standard : ISO 4064, we are also awarded ISO 9001:2015 certificate.

DESIGN FEATURES

1. Specially Shaped Inlet Nozzles and Light Weight Vane Wheel : Ensures a constant high accuracy for a wide flow range.
2. Selected Synthetic Material : Resistant to corrosion and long working life.
3. Hermetically Sealed Register : Permanent clear view.
4. Magnetic Drive : High accuracy of low flow and high durability by eliminating a gland or a stuffing box.
5. Magnet Shielding : High quality of protection against external magnetic field.
